MR. DUNCAN'S MOTION FOR A

COMMITTEE TO INQUIRE INTO THE PRESENT STATE OF THE

The House of Assembly will, in pursuance

of a notice to that effect given by the mem-

ber for Lake District, shortly be asked to ap-

point a committee to enquire into the presen

state of the Probate Court, a very proper

subject for investigation, and one which

We are not aware who at the present

moment is supposed to be the custodian of

the funds belonging to that court. We sup-

where, to the credit of the Public Administra-

tor of the Colony. Since the constitution of

the Court of Probate large sums must have

been received by that official, and it is quite

right that the public should have an oppor

tunity of seeing how the money so received

has been applied. An enquiry should be

made as to what funds have come into the

hands of the Public Administrator, how they

have been disbursed, what business has been

transacted in the Probate Court, the amount

business, and an account of the expenses of

the office, including salaries or fees paid to

administrator general, and the clerks, or other

officials, if any there be in the employed in

the office. We write in ignorance of the way

in which the business of this-shall we say

mysterious?-court of law is carried on, but

we believe that at the present moment there

is no other official in existence connected

with the Court of Probate than the Chief

It is somewhat surprising that the post of Administrator General should be allowed to re-

main vacant. It is an office of no inconsider-

able importance. When we reflect upon the

uncertainty of life, and consider the habits and

customs of our population, we cannot but feel

the necessity of there being a proper system

of administering the effects of those who die intestate leaving property in the Island, and

no surviving relatives entitled to claim to see

A considerable amount of property has passed through the hands of the Public Ad-

ministrator within the last few years, and it

is due to the relations of deceased property-

owners, that they should be satisfied that

proper justice has been done to them, and as

the population of the colony increases so

will the importance of this matter increase.

The duties of the Committee will be by no

means light, but we trust the investigation

will be one of a most searching nature, one

which will leave no room for any doubt or

speculation. Let the matter be probed to the

bottom, and let it be ascertained who is re

sponsible for the proper discharge of the

duties and for the funds of the Probate Court.

If the Committee be appointed and do their

duty, which we have, no doubt, they will

most unflinchingly, no shifting of responsi-

bility will be allowed, but the Committee

will faithfully report who is the responsible

party, and what is the nature and extent of

his responsibility. The system hitherto pur-

sued may have been good, but we hope that.

if it is found by the Committee not to have

worked well, they will recommend for the

future a system which will leave no loophole

Committees of this nature are of the great-

est value, they act as a healthy check upon

officials, and if they were frequent they would

prevent the recurrence of anything which

could give rise to any such remarks as those,

THE DRAINAGE OF THE TOWN.

Each change of season brings with it a

past two months we have been suffering

from excessive drought, and have been led to

water, so with the commencement of the

heavy rains and consequent accumulations

of mud and stagnant pools of water within

our city boundaries, we are led to reflect upon

the advantages of a proper system of drain-

age and sewers. We are well aware that

city during the past year ; but we think that

be done respecting the drainage of the city.

Anyone whose business or pleasure causes

him to walk much through the main streets and thoroughfares of the city, not to speak

of the more unfrequented and unfinished

roads in the outskirts of Victoria must be

painfully conscious of the existence of many

nuisances; it is only necessary to walk up

Fort street to find out how great a need

there is of a good drain, the dampness of the

last week or ten days has brought out bad

smells from every cesspool that is foul and

needs cleansing. There are many places

worse than that which we have mentioned.

but a wide illustration is enough for our pur-

pose; the autumnal season more than any

other is disposed to induce malaria where

any stagnant water or refuse matter exists,

and it behoves the City Council to set their

machinery in motion to cause the removal of

all nuisances which if neglected may very

the maintenance of a proper sanatory con-

dition in our city.

The construction of sewers was one of the

first objects calling for the attention of the

Corporation, and it is their duty to pay pro-

per attention to it before expending one dol-

lar of the revenue upon less urgent matters.

Until a proper system of drainage can be

laid down let the Council exercise the pow-

ers which they possess to compel the abate-

ment of all nuisances now existing within

YOUNG LADIES! VIEW STREET, VICTORIA,

THIS INSTITUTION IS CONDUCTED

PHIS INSTITUTION IS CONDUCTED by the sixters of St. Ann. The discipline of the School is mild, but firm and regular; strict attention to its regulations required at all times. The emulation of the pupils will be excited by every gentle means, and their success rewarded by an annual distribution of premiums, previous to the Vacation, which will commence July 15th. The Scholastic year will open on the first of September. Difference of religion is no obstacle to admission into the institution, but whilst pupils are left without any interference to follow their own profession, good order requires that they should conform to the general regulations of the establishment.

Parents may rest assured that every necessary attention will be paid to the comfort of pupils, whilst the utmost car will be conformed and mortality which alone can make education profitable.

Reyal Hospital.

It has for some time past been known that an investigation into certain charge preferred against the Superintendent of the Hospital was pending. The following report has been presented to the Board by the visiting Committee charged with the enquiry—
REPORT OF THE VISITING COMMITTEE OF THE ROYAL HOSPITAL.

We having been informed that one of the patients had published a charge against the Superintendent, deemed it necessary to investigate the same, and ascertained that the charge had reference to one act only, which consisted on the part of the Superintendent to the superintendent to learn whether he had a sheet upon him which he was required to have according to the rules. The Committee therefore expressed to said patient their disapprobation that so serious a charge should have been made for so trifling a cause.

The Douglas street Assault.—The case of John Mahony, charged with violently assaulting Michael Wells, on Saturday last, came up yesterday for hearing in the Police Court, Mr. Bishop appearing for the prosecution, and Mr. Ring for the defence. From the evidence of several witnesses, it transpired that both parties were in liquor at the time, and were proceeding towards Wells' home, when a scuffs ensued, the parties falling together, and Mahony was observed take Wells by the hair and knock his head violently three or four times against the sideviolently three or four times against the side walk, causing blood to issue from his nose and mouth. Dr. Powell was also called and stated that he had examined the prosecutor's head, and fonus some severe bruises, but neuts; he was auffering at the time from the effects of the beating he had received, and also from the effects of drink. The accused was allowed to make his statement, in which he alleged great provocation, but did not deny having committed the assault. Mr. Ring said the parties entered the court with a desire to settle the matter, and asked leave that they might adjourn for a few minutes to that they might adjourn for a few minutes to the testile means a process and known them. Mr. Great hopes were entertained that the seat of violently three or four times against the sidea desire to settle the matter, and asked leave that they might adjourn for a few minutes to arrange the differences between them. Mr. Bishōp replied that he would leave his case in the hands of the court. Mr. Pemberton commented upon the practice which had obtained of making an improper use of the Police Court. Summonses were taken out, and cases were carried on from time to time them the region of the property and cases were carried on from time to time when the parties knew that they could be easily settled out of court. He was compelled in this case to say that the accused had committed a brutal assault, and he would therefore inflict the full penalty of £5, which he considered light for such an offence.

VICTORIA THEATER. — Poole's sterling comedy of Paul Pry was performed last night by the Marsh troupe to an excellent house. The Chief Justice of the Queen's Bench in Lower Canada is old and infirm, and the bar have several times represented to the government that he is unfit to discharge the duties devolving upon him, but he cannot be persuaded to resign. Hon. Mr. Drummond, who is at present Solicitor General for Lower Canada, is Josking out for the situation. He failed to secure his election in the late contest. before Mr. Pemberton with assaulting Johnny, a Hydah Indian. The offence was proved, and Mr. Pemberton remarked that he proved, and Mr. Pemberton remarked that he was sorry to see that the Chinamen, who have hitherto been quiet and well behaved, had lately been rather pugnacious. An officer was present and if the Indian had behaved improperly the Chinaman's duty was to give him in charge and not strike him. He would fine the accused \$10 or 14 days' imprisonment.

I gave you particulars some time ago of the Aylward case, wherein a man and wife were convicted of a brutal murder and hung for it, but because they were Roman Catholics and because also that the opposition are hard up for something to allege against the government, it is charged that the murderers were martyrs and unjustly executed. Mr. Cartier made a violent attack upon Chief Justices hip. Justice Draper during the debate on the Chief Justices hip. Justice Draper who happened to be present rose and left the House. Much indignation is felt at the course of the opposition. The Committee further enquired into the circumstance of the quarrel which arose between the Superintendent and the lately appointed assistant. The Superintendent and the lately appointed assistant. The Superintendent is appears required said assistant to cut wood which he thought was not a part of his duty, upon his refusing to do so, he dismissed him. He was teld by one of the General Committee to return to his duty, and upon doing so some angry words passed, whereupon the Superintendent went and obtained a warrant for his arrest which was executed by two policemen.

As no act of violence was committed by the assistant, they cannot but condemn most strongly the harsh proceedings of the Superintendent. LILLOOET, Sept. 19, 1863. A melancholy accident occurred on the 14th inst to Mr. R. W. Sherrat on the Pemlest I dith inst to Mr. R. W. Sherrat on the Pendell beton Portage side of Anderson Lake, result ing in instantaneous death. It appears from accounts I received from the friends of detection, the friends of the ceased, that on arrival of the steamboat he was not at his usual post (that of receiving clerk to the Lady of the Lake,) and some of them went to his office. After knocking at the door and receiving no answer, they enter the door and receiving no answer, they enter the door and receiving the door and the door and receiving the door and tered, and a horrid spectacle presented itself to view. The old gentleman lay on the floor with part of his skull completely blown away by the discharge of a shot gun. He had been suffering some time from lumbago, and was always in the habit of keeping a loaded double barrel gun at full cock as the head of his bed. It is supposed that he took hold of the gun to assist him in getting up, when some unlucky accident caused its discharge. He was much past the prime of life; had formerly been clerk in the English Consulate office at Litma, and afterwards in business in San Francisco, where he lost his property in one of those fires that devastated that city in its early days. tered, and a horrid spectacle presented itself

We have before us the prospect of an Indian war on a small scale. Some time ago Mr. Gibbard, the government fishery inspector, leased a portion of the fisheries near Lonely Islands, Like Superior, to a couple of Frenchmen. The In dians claim that the fisheries belong to them, and they accordingly expelled the lessees. Various other illegal acts were committed, and at last an armed force of men numbering some fourteen, were sent to arrest the ringleaders; but they had to retire without effecting their purpose, as the For the last few years he had been a resistent of British Columbia, in various capacities, and finally, located himself at Anderson Lake, as freight receiver, in which vocation he gave entire satisfaction in all his business transactions. His melancholy death is much regretted by his numerous friends.

THE AYLWARD CASE.

EDITOR BRITISH COLONIST.—SIR,—Several persons have called my attention this morning to the letter of my esteemed neighbor, Mr. Scott, on the above subject, and as I have traversed the ground to which he refers I am prepared to confirm his statement, and if so, they consider it to be a duty to the

them a word of caution. Take the right-hand side of every slough for thirty-six miles down, and take an axe with you, and ent your way through the bush for a little distance. You will save time as well as your cattle. When you come to the Cocasilus river, do not attempt to cross it, for the probability is you will not succeed in getting your stock out on the opposite bank, but cut your way through the bush, about 50 yards to the left, and you will there find a part which is fordable.

The makers of the trail avoided this, as it would have involved the filling of a few holes. There employ an Indian at the village to what they call the "Somenos King George Trail," or you will almost certainly lose

Trail, or you will almost certainly lose your way. Beware of some four or five sloughs after you pass the next stream, and cut through the bush at the right rather than

venture over them.

I do indeed regret to have to make these statements, but I cannot see my fellow col-onists exposed to danger without giving a word of warning. In new countries we must expect difficulties, but let us be faithful to each other—let us state our grevances and the Government will in due time redress rerment will in content will in content will in content will in content with the service of the them.

Let every soldier procure this emedy.

disease cannot be cured merely by local treatment, For example :--No local application to the part affected will radically cure the piles. The habit of body, which is the primary case of the complaint, must be changed. For this purpose Bristol's SUGAR-COATED PILLS, the finest vegetable alterative ever compounded, is the medicine to be used. Costiveness is almost invariably the im-mediate cause of this distressing disorder. This condition of the bowels is at once once changed by the action of the Pilis. Indigestion and morbid action of the liver produce constination. These, too, are swiftly remedied by this powerful vegetable agent, and the organs toned and regulated to a condition of perfect health. Thus are the symptoms and source of the disease removed together, and it is at an end for ever. It is the same with all the complaints which come within the remedial scope of this great alterative, cathartic, and antibilious medicine. Theylare put up in glass vials, and will keep in any climate. For sale at all the regular drug establishments.

1T REVOLUTIONIZES THE SYSTEM,-One of the grand marvels in medical science is the rapidity with which BRISTOL'S SARSAPHILLA recruits the strength of broken-down invalids. Experience done can enable the sick to realize its effects in of physical prostration the patient may have been educed, Bristol's Sarsapar, lla will recuperate him. Some physicians have suggested the injection of pure blood into the veins of the sick, but this potent restorative converts every drop of blood in the patient's body into a living tonic, capable of lending new strength to the muscles, the nerves, the stomach, and the whole animal machinery. Let no weakling despair of living to a good old age—for in this preparation exists a vital princi-ple which will restore the strength of the feeblest. To be obtained of all druggists.

Will accompile, this desirable revolution in the system regulating the scretcions and executions to grow the animal juices which dissolve the rood, strengthen every relaxed nerve, muscle and tibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken dewn frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in Dr. Hostetter's Stomach Bitters.

A Word to the Aged. In the decline of life the loss of vital force con-sequent upon physical decay can only be salely sup-plied by some vivilying preparation which recruits the strength and spirits, without entailing the ex-haustion which is always the final effect of ordinary stimulants.
